## SUPER GEL

Easy Fix Super Gel is a powerful adhesive designed for strong, lasting bonds. Its super glue-based formula is heat and water-resistant, making it the perfect solution for assembling WPC cabinets, wardrobes, and TV units. Unlike nails and screws that can loosen over time, Easy Fix Super Gel ensures seamless and durable joints.

Ideal for modern interiors, it works quickly and efficiently, reducing both manpower and production time. Whether you're crafting modular kitchens or furniture pieces, Easy Fix Super Gel offers a reliable, easy-to-use adhesive solution for superior results.

## SURFACE OF APPLICATION

PVC Laminate

Wood

Marble

Most Plastic

Cardboard

Mica

## PROPERTIES & BENEFITS

- Single Component High Viscosity adhesive.
- EASY FIX Super Gel is ideal to bond rough & jagged surface like that of a broken bumper. The application of this super glue on the surface makes it smoother & makes the pasting easy.
- Our special Gel Adhesive is thick & does not get absorbed by the surface.
- Quick & strong adhesion attained in mere minutes.

# 502 SUPER GLUE

Kaka Industries Limited — a leader in India's manufacturing, exporting, and trading landscape — proudly presents Easy Fix Instant Adhesive. This Single Component, Instant Curing, and Solvent-Free Adhesive is designed for superior bonding across a wide range of materials. Quick and easy to apply, Easy Fix requires no mixing or heating — just a touch of contact pressure ensures a strong, lasting bond.

Engineered with precision, Easy Fix works best as a thin film between two surfaces, delivering instant adhesion for industrial, commercial, and household applications. Backed by Kaka Industries' commitment to innovation and quality, it's the perfect solution for fast, reliable, and durable bonding.

|                 |                                   |
|-----------------|-----------------------------------|
| Grade Standard  | Industrial Grade / Chemical Grade |
| Brand           | Easy fix 502 super glue           |
| Chemical Type   | Ethyl                             |
| Viscosity (CPS) | 2-3                               |
| Gap Fill (mm)   | 0.004                             |
| Cure time       | 3 to 5 seconds                    |
| Color           | Clear (Transperent)               |
| Packing Size    | 20 gm, 50 gm                      |
