## About Us

Kaka Industries Limited stands as a prominent player in India's manufacturing, exporting, and trading landscape, specializing in top-tier PVC, uPVC & WPC products. We proudly offer renowned brands such as KAKA uPVC Profile providing products such as EXCELLENT, PREMIUM, SOLID PLY, NICE PLAST, WALL & CEILING PANEL, DECORATIVE LOUVERS, PVC LAMINATE, WPC LOUVERS, CHARCOAL LOUVERS, D'zino FMD DOORS, Experia FMD DOORS, PTMT BATH FITTINGS , WPC Decking panel, Recycled sheets, KAKA TANK, JINWIN uPVC Profile, BARBARIKA uPVC Profile, and JINWIN HVLS FANS.

Our distribution network spans across all major cities in India, and our extensive and innovative product line is meticulously designed to enhance both comfort and efficiency, while staying true to the latest modern-design and ergonomic trends. At Kaka Industries Limited, we are dedicated to delivering unparalleled service to our customers, as evidenced by our ever-expanding customer base. Utilizing cutting-edge technology and imported machinery in our manufacturing processes, we ensure that we meet and exceed customer expectations. Our highly experienced technical staff and designers are always on hand to provide technical support to our valued customers and to introduce innovative concepts in the realms of "Interior & Exterior."

## India's Plastic Waste Challenge

### Significant Waste Generation

India faces a massive plastic waste management challenge. Recycled plastic sheets offer a practical solution by transforming a significant portion of this waste into usable products.

By utilizing recycled plastics, it helps to divert plastic waste from landfills and reduce environmental pollution.

### Reducing Environmental Impact

Plastic pollution affects India's land, water, and air quality. Recycling helps mitigate these harmful effects.

The large number of rivers and coastlines in India are heavily impacted by plastic waste, and recycling helps to reduce that impact.

## Recycled Plastic Sheet

Recycled Plastic Sheets are durable, eco-friendly alternatives to wood and metal, made from processed plastic waste. They resist water, termites, and corrosion, making them ideal for brick pallets, partitions, wall cladding, and shuttering. Lightweight and long-lasting, they offer a cost-effective, sustainable solution for various industries.

### Features

#### Waterproof

Resistant to water and moisture, suitable for all weather conditions.

#### Durable

High strength and impact resistance for long-lasting performance.

#### Eco-friendly

Made from recycled plastic, promoting sustainability.

#### Termite Proof

Does not attract termites or pests, unlike wood.

#### Chemical Resistant

Withstands exposure to chemicals and acids.

#### Lightweight

Easy to handle, transport, and install.

## Pac Brick Pallet

A reinforced pallet used in large-scale concrete brick and block production lines. It offers stability under high-speed production and machine vibrations.

The Ultimate Base for  
Brick Perfection.

**Applications:**

- Brick Manufacturing
- Block Production
- Construction Industry

**Features:**

- High strength
- Vibration-resistant
- Heat-resistant

**Strength**  
That Holds Every  
Brick Together.

## Pac Paver Brick Pallet

A pallet designed specifically for paver block production and handling heavy loads. It ensures a non-slip surface and stability during high-pressure manufacturing.

**Features:**

- Heavy-duty
- Anti-slip surface
- Pressure-resistant

**Applications:**

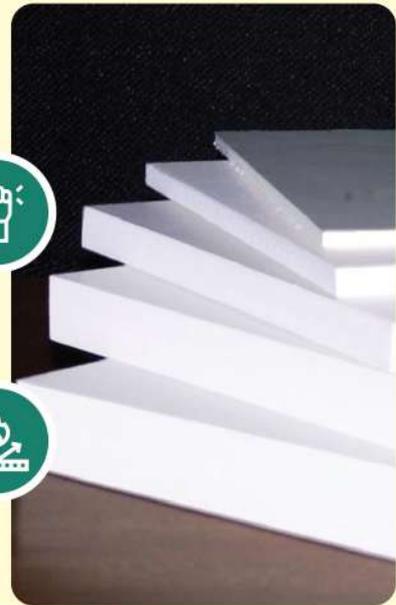

- Paver Block Making
- Curing Process
- Construction Use

## High-density Brick Pallet

A heavy-duty pallet designed to support heavy bricks and blocks during production. It is built to withstand rough handling and heavy loads in factories.

High Density,  
Higher Performance.

### Applications:

- Brick Making
- Block Manufacturing
- Construction Use

### Features:

- Extra tough
- Impact-resistant
- Long-lasting

Built for **Strength**,  
Designed for  
**Sustainability**.

### Features:

- Strong
- Waterproof
- Resistant to bending

## Fly Ash Brick Pallet

A durable pallet used in fly ash brick manufacturing for molding, curing, and handling. It provides stability during brick production and ensures smooth operations.

### Applications:

- Fly Ash Brick Making
- Curing Process
- Construction Use
